

# ARCH

## Arch

Arch can be described as practical but is so much more! Designed to be used frequently and handle large volumes, it fits in crowded environments. The stylish design makes Arch stand out from ordinary, and often dull, recycling modules. Made of sheet metal, it is both robust and easy to clean. The different sorting bins make it easier to recycle and with three garbage bags, there is room for lots of rubbish. Arch fits perfectly in larger areas such as malls, in the middle of the room, or in a walkway. The adjustable feet are standard, opens from the side to avoid heavy lifting.
