

UNIT

Unit

The perfect storage solution for the workplace!
Unit is a recycling module that fits into most environments.

Place it against the wall or in the middle of the room and make recycling hard to miss. Unit comes in three sizes and has a pull-out holder for the garbage bag for easy care. In addition to the standard version in white laminate, the module is available in veneer or lacquered in any colour. When lacquering, a stainless steel shoeing at the throw-in hole is also included. For extra clarity, we recommend our stickers with text and symbols on the doors, if the unit is lacquered, you can choose milled text. Unit is available in sizes: single, double, and triple, for smaller fractions, there is also a 3-drawer section for double and triple. Pull-out sack holder to avoid heavy lifting.
