PERSONAL STORAGE

Lundqvist™
INREDNINGAR

FLEX

A storage system with incredible flexibility designed in collaboration with Alpen Office. The system is based on two depths, two widths, and four heights. Choose materials and colours that blend seamlessly into your environment or create a bold statement in the interior design.

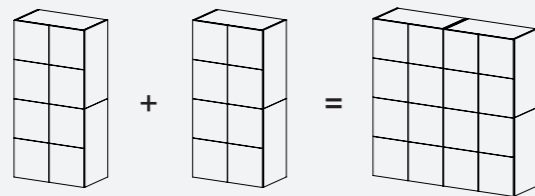

Add locks, mail inserts, seating modules, side tables, lighting, and power outlets—or why not a charging pad for your phone—and create a complete unit with all the features today's flexible workplaces demand! Add FLEX!

1.

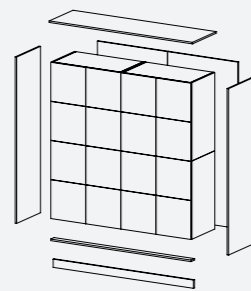

Select modules...

2.

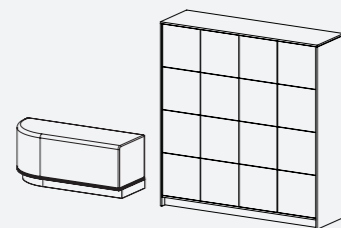

...combine on width and height...

3.

...choose materials for cover panels and doors...

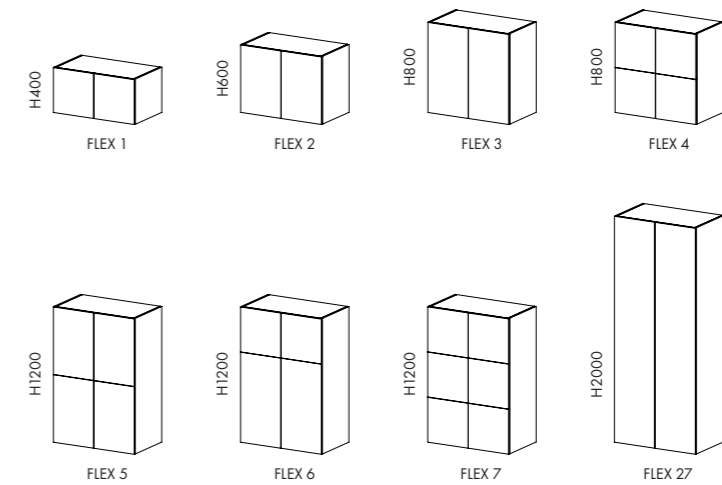

4.

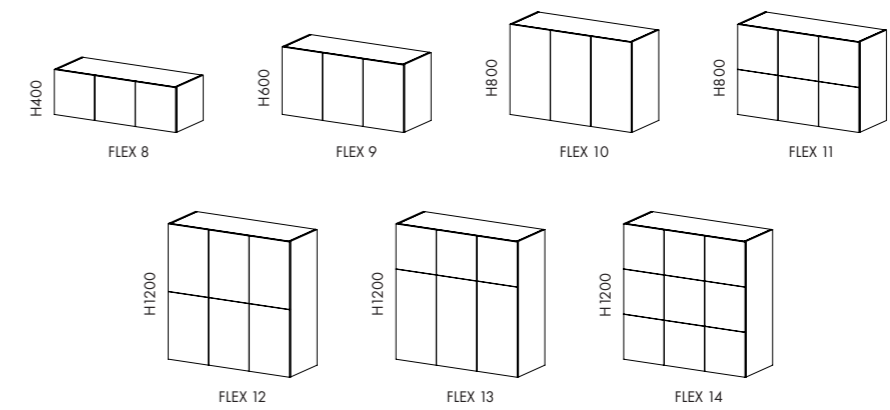

...select accessories.

*You can also choose locks, doors, interiors, and more unique module solutions.

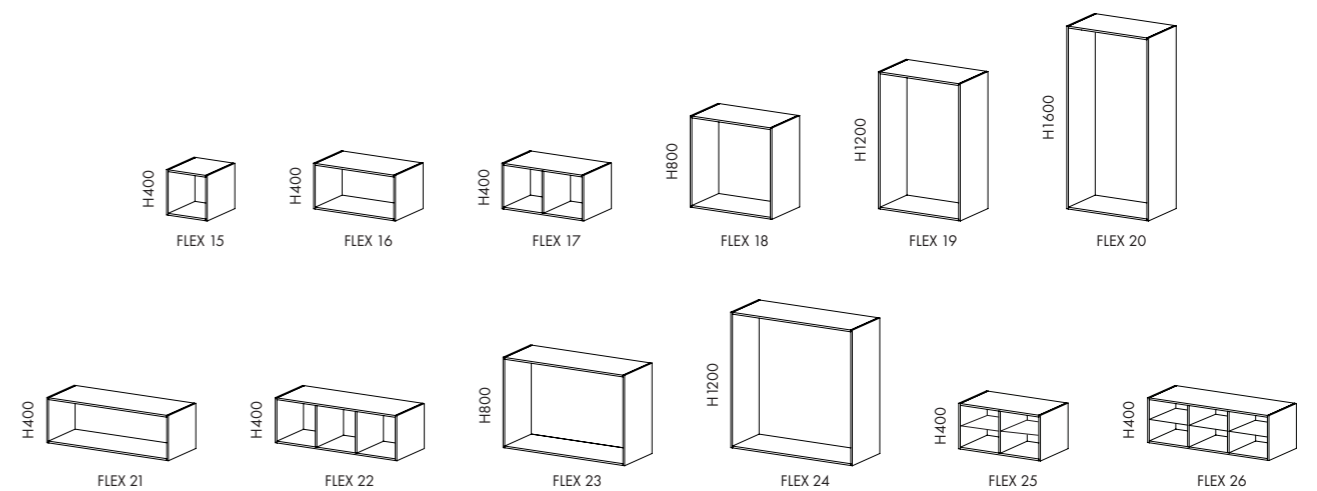

Modules, width 800 mm, depth 470/570 mm

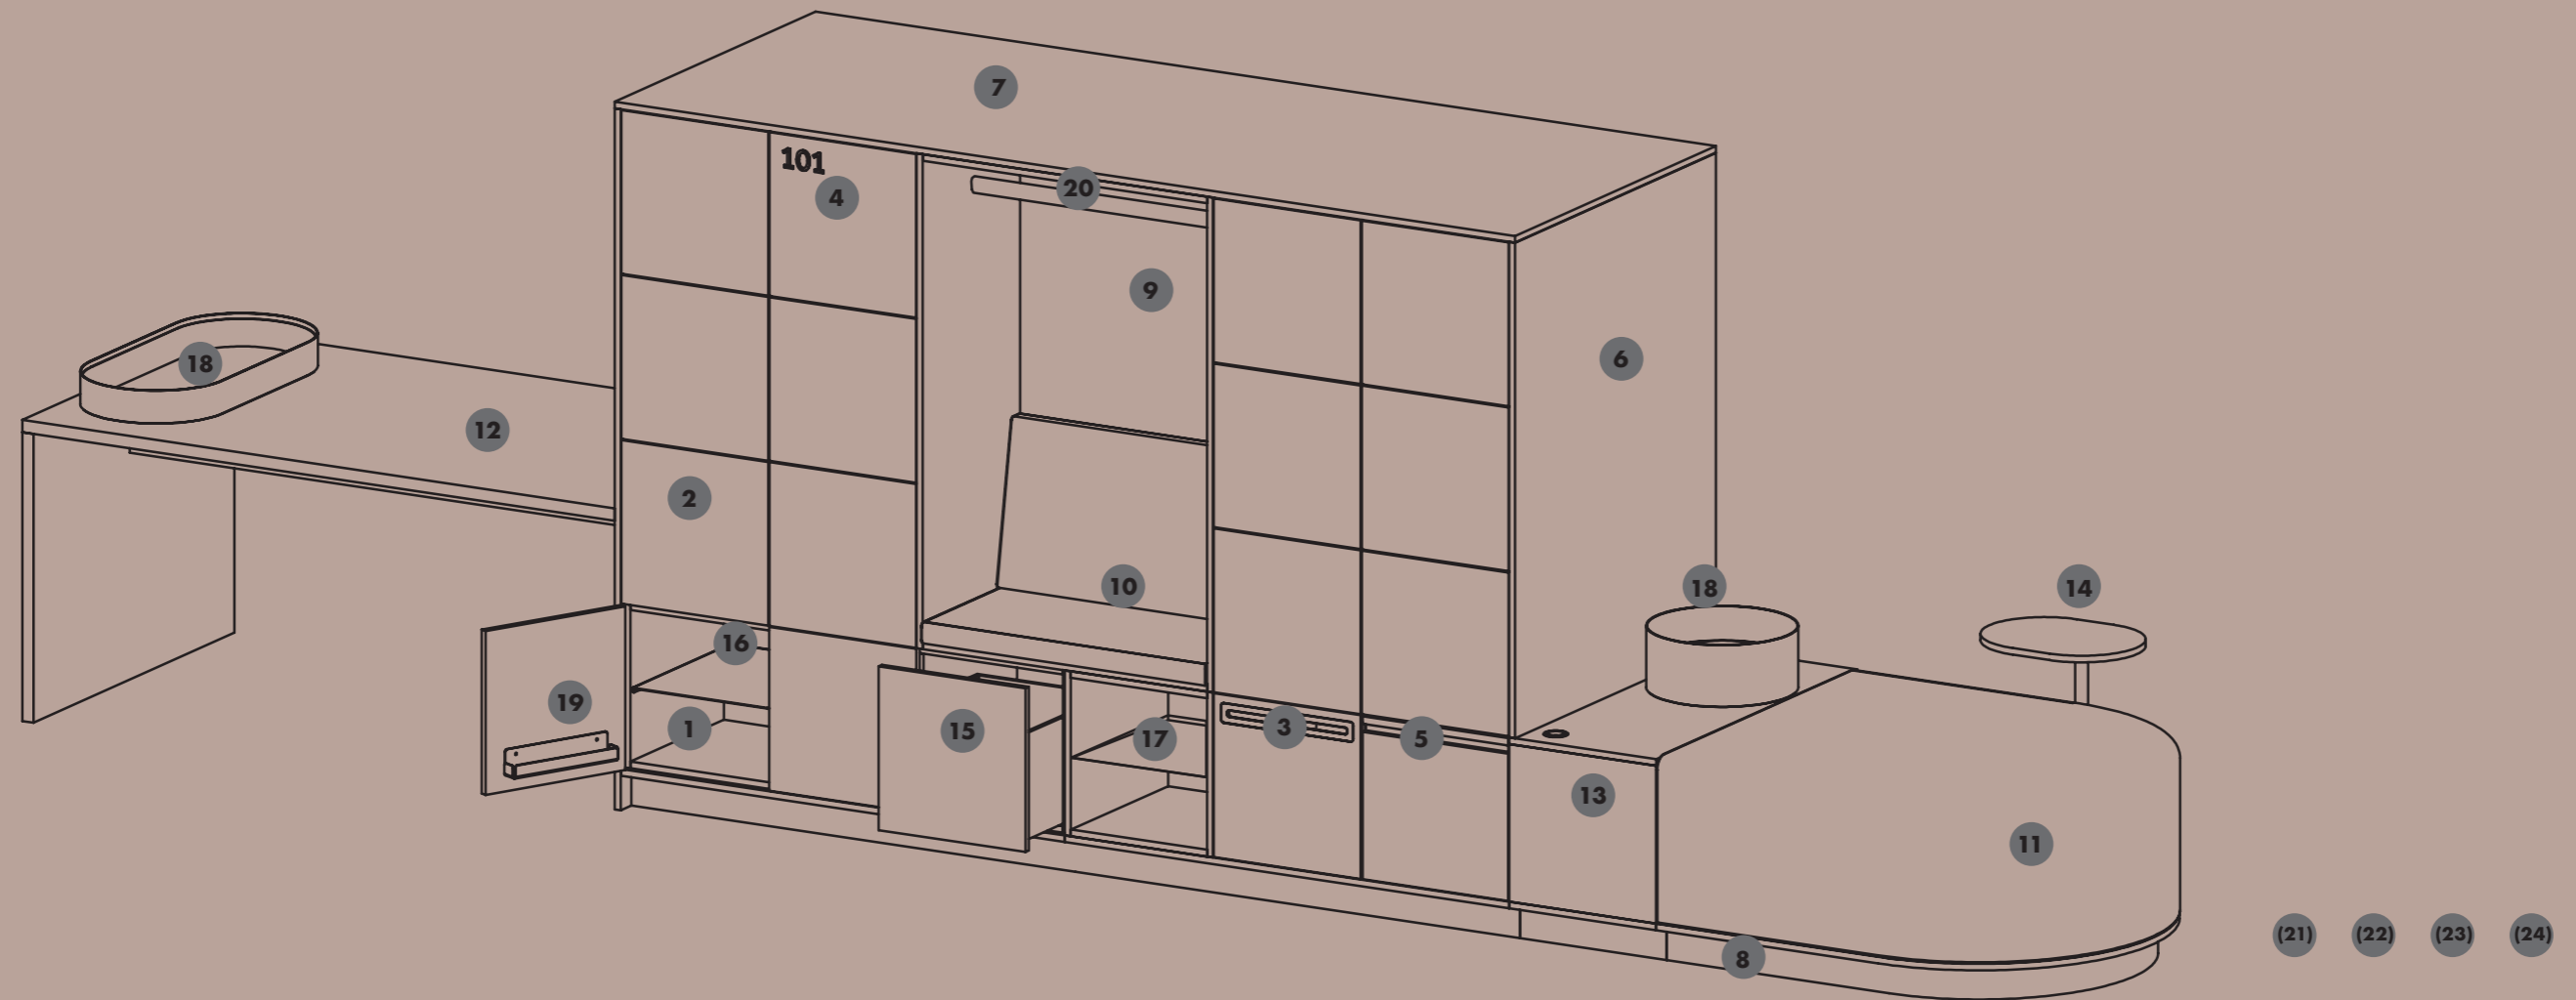

Modules, width 1200 mm, depth 470/570 mm

Open modules, width 400/800/1200 mm, depth 470/570 mm

1. MODULES Made in 16 mm directly laminated particleboard, colour white, 3 mm back. Doors are included for each module.

2. DOORS Right-handed. The door is made in 16 mm chipboard. Available in optional colour, laminate and veneer in white-pigmented ash, birch and oak.

3. MAIL DEPOSITS Same design as door. Protective lining is powder coated.

4. NUMBERING OF DOORS Cut-out decal in vinyl plastic. Standard colors are black or white. Other colours is possible.

5. HANDLES Available with numbering. In 1.5 mm powder coated sheet metal.

6-8. COVER- & CAPPING PANELS / SKIRTING BOARDS / TRIMS Made in 16 mm particleboard, skirting board height 100 alt. 200 mm incl. trim at the top of the skirting board. Available in any colour, as well as in laminate and veneer in white-pigmented ash, birch and oak, alt. coloured MDF. All parts are adapted to the order's length and height. Maximum length of seamless cover boards, capping boards, skirtingboards, and trims is 2400 mm.

9. OPEN MODULES Made in 16 mm particleboard. Available in any colour, coloured MDF, laminate and veneer in white-pigmented ash, birch and oak and coloured MDF.

10. SOFAS Upholstered seat and back.

11. POUFS Upholstered pouf for stand-alone modules or modules against a wall. Skirting board and trims is same as cover and capping panels.

12. PROJECT TABLES Made in 30 mm particleboard. Available in laminate and veneer. Length and height are adapted to the order.

13. END TABLES Made in 16 mm particleboard, placed between pouf and cabinet. Available in any colour, laminate and veneer in white-pigmented ash, birch and oak.

14. ADDITIONAL TABLES The top is made from 16 mm particleboard, with a column of 30 mm diameter in 1.5 mm sheet metal. Available in laminate and veneer in white-pigmented ash, birch and oak. The base is powder-coated.

15. DRAWERS The drawer front is made from 16 mm particleboard. Available in heights of 200/400 mm, width 400 mm. Available in any color, laminate, and veneer finishes in white-pigmented ash, birch and oak.

16. SHELVES 16 mm direct-laminated particleboard or 1.5 mm powder-coated sheet metal in RAL 9010, Pure White (standard).

17. EXTENDABLE SHOE RACK FOR OPEN MODULE
Made from 1.5 mm sheet metal, powder-coated.

18. DISPLAY CONTAINER
Available in 2 sizes, made from 2.0 mm sheet metal, powder-coated. With protection tray bottom or insert in wood.

19. SHEET METAL SHELVES Made from 1.5 mm sheet metal, powder-coated as standard in RAL 9010, Pure White.

20. WARDROBE RAILS Accessory for open module, available in lengths of 800 mm or 1200 mm. Powder-coated.

(21.) BACKS 3 mm white fiberboard as standard when placed against a wall. For freestanding units, an additional back panel in 16 mm is available. Available in veneer, laminate, coloured MDF, lacquered, fabric, and bulletin board.

(22.) ACCESSORIES Accessories such as various lock types, hooks, electrical options, nameplates, mirrors, and lighting can be found on page 14.

(23.) WARDROBES Wardrobe module is available.

(24.) PLANTING BOXES The plant boxes are available in white/light grey laminate, high-pressure laminate, veneer, or lacquered finishes. Plastic protection trays included. Functions as an outer casing for planting containers.

FLEX INFO

Flex is a modular system designed for storage, work, and interaction needs of today and tomorrow. The core idea is simple – a flexible system built around a few basic components that allow countless variations and can serve as more than just storage. Choose a set of base modules and then combine them freely in height and width.

Take your storage to a new level by complementing your Flex with accessories such as side tables, seating poufs, and project tables for a comfortable and inviting environment.

FLEX MODULES WIDTH 800 MM

FLEX MODULES WIDTH 800 MM

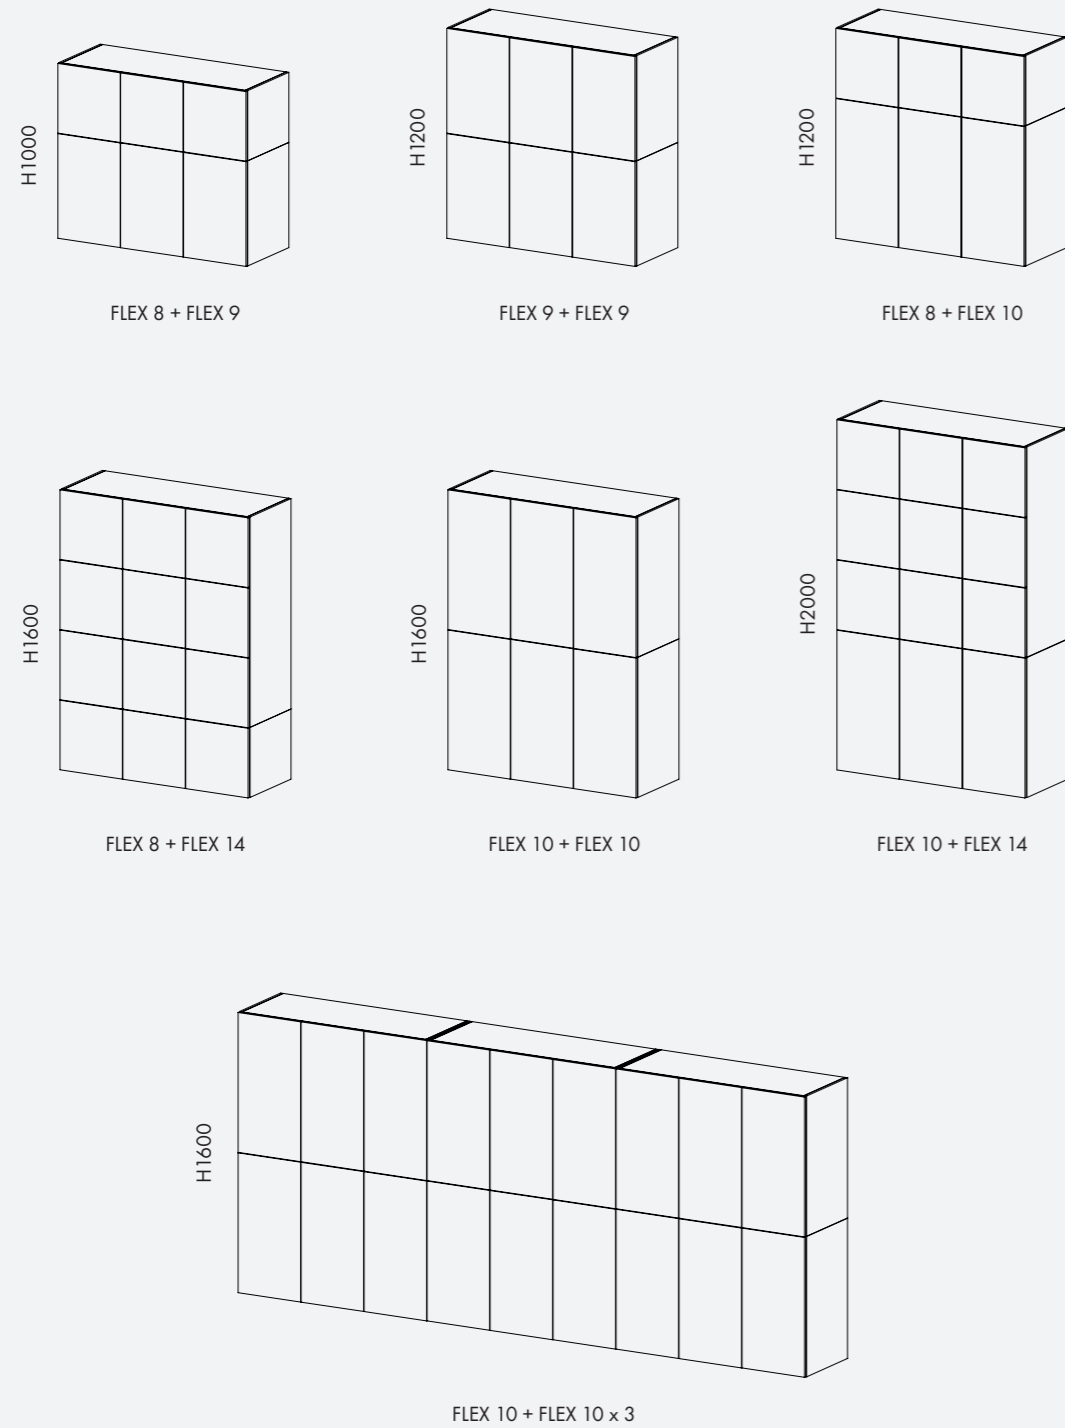

A plain door is included with all base modules. Below are the variations available with 2 cabinets in width. Combine them freely to create the perfect storage unit to meet your needs.

A cabinet measuring 400x400 mm works perfectly for storing binders, a laptop, and perhaps a handbag. A 600x400 mm cabinet fits a cabin suitcase or can be equipped with extra shelves for storing personal belongings, a bag, and work tools.

FLEX OPEN MODULES

Open modules are used when you want storage without covering doors, these modules can be available in the same material selection as the doors and cover/capping panels. Combine freely with different accessories such as lighting, mirrors, sofas, clothes rail and different types of electrical outlets.

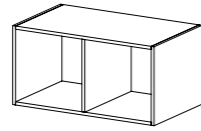

Open modules have a greater depth to line with the fronts of the other modules.

FLEX PROJECT TABLE

PROJECT TABLE LOW

A project table in this design provides a 930 mm high table with storage under the table top.

The project table is built with 800 mm high modules. The maximum length of the jointless table top is 2400 mm.

PROJECT TABLE HIGH

A project table in this design provides a 1100 mm high table with storage on the side of the table top.

The project table is built from modules with optional heights. The maximum length of the jointless table top is 2400 mm.

	Width (mm)	Height (mm)
PROJECT TABLE	940	930
PROJECT TABLE	1040	1100
PROJECT TABLE	1140	930
PROJECT TABLE	1140	1100

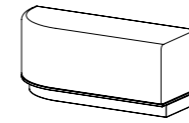

Length is adjusted according to the setup, maximum length of table top without joint is 2400 mm.
Longer project tables are manufactured with a single-sided top plate over modules.

For best durability, we recommend laminate for table surfaces.

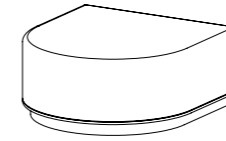

FLEX SEATING MODULES

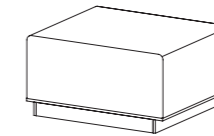

There are several different accessories that increase the areas of use and make FLEX more than just storage. Below are a number of components that enable meetings and work in combination with storage.

Customized solutions are possible.
This may apply, for example, to other measures, surface material or colours.

Feel free to contact us and we will find the best solution for you!

“With FLEX we didn’t just want to make a personal storage that covered the needs that a personal storage requires.
We also wanted to find something that would make FLEX unique. By adding well-thought-out accessories to the storage system, it became an ensemble that also works for socializing and working.”

- Tim Alpen, Alpen Office

Alpen Office is a company that works in furniture design, product design and graphic design in various product areas, materials and techniques. Based on user-friendliness, construction solutions and a deeper understanding of production, we at Alpen Office want to deliver well-thought-out solutions in our projects.
